YUKON BUREAU OF STATISTICS

Population Report
Second Quarter 2016

Highlights:

- The estimated population of Yukon on June 30, 2016 was 37,858; an increase of 515, or 1.4%, compared to the figure for June 30, 2015 (37,343).
- Comparing June 30, 2016 to June 30, 2006, Yukon's population increased by 6,250, or 19.8%. The population of the Whitehorse area increased by 5,253, or 21.9%; Dawson City increased by 377, or 21.2%; and Watson Lake decreased by 55, or 3.6%.

Notes on methodological changes: Prior to 2012, the Yukon Bureau of Statistics produced population figures twice a year. Effective 2012, figures are produced quarterly.

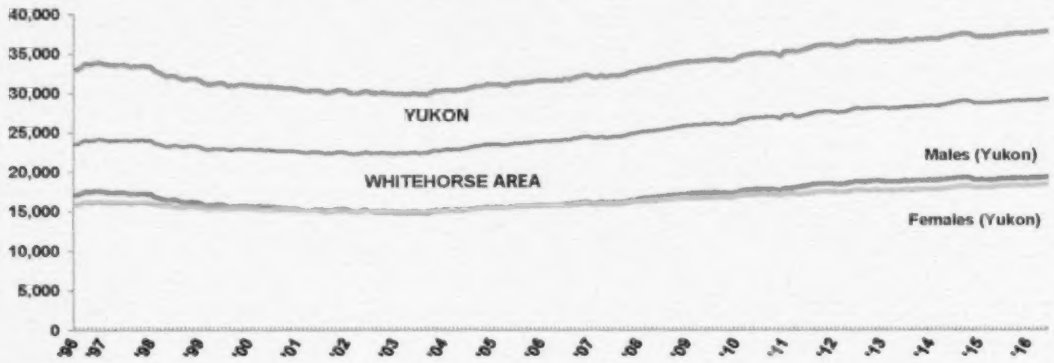
Official population counts prior to June 2010 were based on information in Yukon Health Care Insurance Plan (YHCIP) files and a semi-annual health care update survey that estimated the number of plan members who were no longer Yukon residents. In 2010, the estimation model was revised and the population counts for June 2010 through December 2014 were derived by tracking changes in YHCIP files and other administrative data files. In 2015, the model was further revised to make the approach more comprehensive and to improve accuracy based on information in all available and applicable administrative data files of the Yukon government. In addition, the total population count of April 2011 was calibrated to a census-based estimate adjusted for net undercoverage.

The new model assigns residents of unorganized areas to their nearest communities. Estimates for Whitehorse now include population in surrounding areas *as well as in Marsh Lake* to remain comparable with the geographical area defined by Statistics Canada as the Whitehorse Census Agglomeration.

All monthly estimates are as of the last day of the month. The June estimates represent annual figures.

Due to the change in methodology in 2015, figures presented in this publication for the period from April 2011 to December 2014 are not strictly comparable to figures prior to the period.

Monthly Population, June 30, 1996 to June 30, 2016



- Yukon's population declined steadily from 1997 to 2001, and then fluctuated around 30,000 from 2001 to 2003.
- From 2004 through 2014, the population increased almost steadily with successive record highs[1] in most quarters. However, during the last quarter of 2014, the population decreased by almost 400. The population then remained almost unchanged up to mid-2015 before regaining an upward trend. The June 30, 2016 population at 37,858 is the new record high for Yukon.
- On June 30, 2016, Yukon's population was 37,858, an increase of 216 people, or 0.6%, from March 31, 2016 (37,642), and an increase of 515 people, or 1.4%, from June 30, 2015 (37,343).

[1] Accurate population counts during the Gold Rush are not available. However, the first Census population figure for Yukon was 27,219 in 1901.

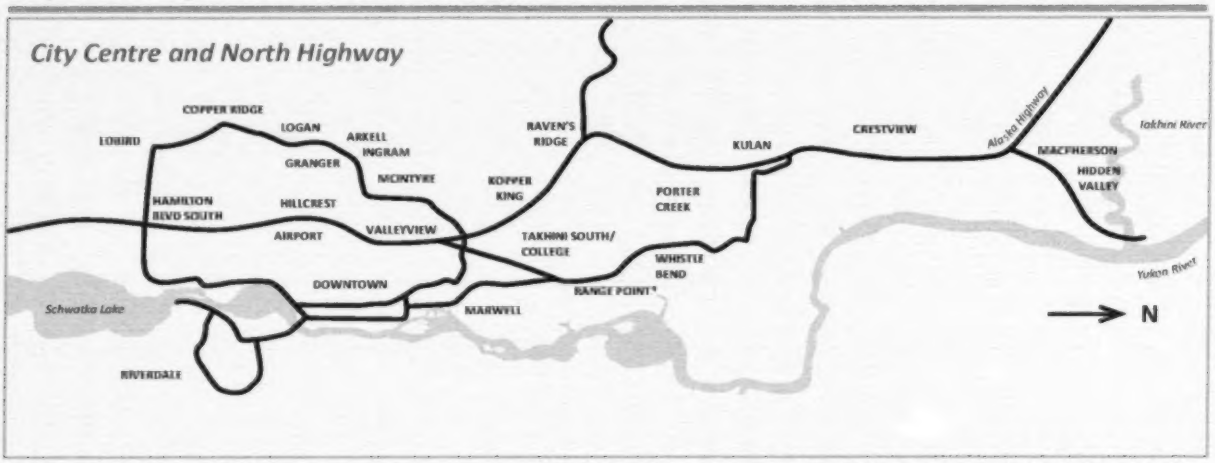
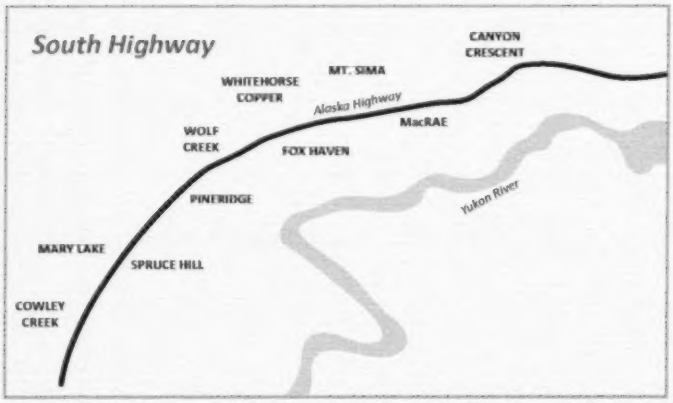
Population by Subdivision in Whitehorse Area





Note: Residents of Whitehorse area are assigned to subdivisions based on their addresses in various administrative files. Some addresses in these files appear inconsistent or incomplete. Efforts have been made to resolve any apparent inconsistency or incompleteness of information by validating the information against multiple sources.

Changes in subdivision populations from one time period to another are not only due to natural population change and migrations, but may also be due to reassignments of previously inaccurate addresses on file.

* *Range Point* replaces previous subdivision name of 'Takhini North'

[1] *Post Office Box* refers to cases where the mailing address is only identified as a Whitehorse post office box and information on address is not available in administrative sources. *Post Office Box* includes General Delivery and Bag Services.

[2] *Inconsistent Information* includes residents who identified their city of residence as Whitehorse but their addresses recorded in administrative files show inconsistencies. Therefore, there is a possibility that some of these residents may in fact reside outside the Whitehorse area.

[3] *Outside City Limits-North* includes those residents living from Takhini River Bridge up to and including Fox Lake.

[4] *Outside City Limits-South* includes those residents living from Carcross Cut-off up to and including Annie Lake Road.

[5] *Outside City Limits-West* includes those residents living from the Mayo Road Cut-off up to and including Mendenhall.

[1] July 1st population. 2006 population estimates are final intercensal; 2016 population estimates are preliminary postcensal. Population estimates are calculated using natural growth, international migration and interprovincial migration.
[2] Population aged between 0 to 19 years old.
[3] Population aged 65 years and over.
[4] The ratio of the combined population aged between 0 to 19 years old and the population aged of 65 years and over to the population aged between 20 to 64 years old. This ratio is presented as the number of dependents for every 100 people in the working age population.
